

Martina Watson

Chief Operating Officer (COO)

Martina Watson, LPC, is a Licensed Professional Counselor and has a Master of Arts in Marriage and Family Therapy from Richmond Graduate University. She has worked with families for 11 years, been a speaker at various events, and has her own private practice in Gwinnett.

Martina is excited about not only delivering wonderfully, engaging presentations, but also further developing the Parent University at LRJ to help parents build better connections with their children at every developmental age and stage. With that being said, Martina has her own family and has been married for 14 years. She has four amazing children. She believes that a family is only as strong as the community that helps support them. She has a wealth of information. She looks forward to sharing with others and learning along side them! Martina has been with the LRJ Foundation since June 2020.
